Our Team

Registered Home Manager: Cheryl Gilderdale

Our care staffing levels are based on the needs of the residents in the home, which is set by the Home Manager and regularly reviewed. Our carers have all undertaken care certificate training or are undertaking the training if they are new to care. This provides them with the knowledge to care for our residents. Care Leaders will have all achieved a NVQ Level 2 in Health and Social Care. The Care Leaders provide direction and guidance for each shift. Those in care management positions will have at a minimum a NVQ Level 3 in Health and Social Care. During the evening the number of carers will be lowered to reflect the care required. In addition to our team of carers we have Housing keeping, kitchen, administrative and maintenance technician staff.

Our home comes equipped with a 24-hour electronic call bell system. This call bell system allows residents to alert carers to any needs they may have from requesting a cup of tea to more serious medical needs. This technology also allows the care team to be alerted if there is an emergency.

This home may use agency staff in the event we are unable to use our own staff to cover the shift. We only use agencies from our preferred supplier list.

Prior to entering into this contract, we will undertake a financial assessment with you to ensure that you understand the financial commitment you are entering into. We may undertake this again at any point where your financial circumstances change. On average, an individual stays with us for 2 years, hence why we ensure you have funds to meet this commitment.

If you are eligible to receive funding from a local authority, they will take responsibility for the purchase of your care. We may require a third party to make a top-up payment equal to the difference between your monthly fee and the amount paid by the local authority where this is not sufficient to cover our full charges.
